SUMMARY

Versatile Developer with a rich background in crafting efficient, testable, and scalable code adhering to the highest software development standards. Proficient in a broad spectrum of front-end technologies including JavaScript, React, and Next.js, complemented by familiarity with backend technologies such as Firebase, Supabase, Prisma, MongoDB, and AWS Amplify. Demonstrated ability to collaborate with diverse teams to refine technical specifications and meet project objectives. Familiar with CI/CD processes, ensuring a streamlined and reliable code deployment workflow. Committed to staying abreast of emerging technologies to optimize operations, and adept at producing detailed software documentation for enhanced team collaboration. Eager to contribute these competencies to a dynamic team, ensuring timely, superior project delivery, and driving business growth and platform stability.

EXPERIENCE

Web Developer

Prime Trust

July 2022 - August 2023, Las Vegas, NV

- Led the stabilization and overhaul of the marketing application, employing efficient coding patterns and refactoring legacy code, which significantly reduced build errors and enhanced application performance.
- Spearheaded the design and maintenance of Google Analytics integration, ensuring robust data tracking, and oversaw SEO strategies, optimizing the application's visibility on search engines.
- Leveraged Contentful's powerful JSON API and structured content feature, enabling the marketing team to independently update blog posts and website content, reducing developer intervention and enabling more predictable updates by the marketing team.
- Utilized Next.js and TypeScript to architect and build a robust full-stack marketing application, enhancing developer experience and increasing application stability by employing a strongly-typed language.

Frontend Developer

Foreign Languages for Kids

July 2021 - January 2022, Remote

- Contributed to the successful development of a Learning Management System (LMS) for teaching foreign languages to children, leading to a significant increase in user base within the first year of launch.
 - Developed and implemented over 20+ new features, functionality, and capabilities on the LMS application using React, TypeScript, and SCSS, improving the overall system efficiency notably.
 - Fostered a cooperative relationship with web designers to match visual design intent, leading to a marked improvement in the LMS's user interface design and a substantial increase in user satisfaction ratings.
 - Created and maintained comprehensive software documentation for the LMS application, ensuring seamless knowledge transfer and boosting team productivity appreciably.
-

EDUCATION

Web Development and Computer Science

Lambda School • San Francisco, CA • 2021

SKILLS

Technical Skills: NextJS, ReactJS, Node, Typescript, Javascript, Redux, HTML, CSS, Sass, GFT, Prisma, MongoDB, AWS Amplify, Firebase, Supabase

Industry Knowledge: UX/UI, Development Operations, Testing, Debugging
